

# Presidential Security Company (PSC)

## Security Infrastructure for Critical Operations

Licensed • Insured • MWBE-Certified

### Company Overview

Presidential Security Company (PSC) is a licensed, insured, and MWBE-certified firm delivering security infrastructure, low-voltage systems, and operational coordination for public-sector, transportation, and institutional environments. PSC supports clients operating in complex urban conditions where compliance, continuity of operations, and operational reliability are mission-critical.

### Core Capabilities

- Security infrastructure planning and site coordination
- Construction-phase and active-site security support
- Integrated low-voltage surveillance and access control systems
- Emergency and continuity-of-operations support
- Temporary and rapid-deployment security systems
- Public-sector compliance, reporting, and documentation

### Contact

### Relevant Experience

#### NYC Department of Transportation

Multi-site security coordination and infrastructure support across 15+ facilities

#### NYC Mayor's Office of Criminal Justice

Hotel operations and public safety support during COVID response (program value exceeding \$5M)

#### Public facilities and active construction sites

Temporary security infrastructure deployments and operational coordination

### Key Differentiators

- Proven experience operating within NYC agency environments
- Effective coordination across public agencies, general contractors, and site operators
- Compliance-driven execution in active, high-risk environments
- Scalable delivery model supporting both planned operations and emergency conditions
